

TAPAS DAS

Technical Support Lead (Platform Operations)

[Tapas Das | LinkedIn](#) | +91 6291575046 | tapas.das222@gmail.com | Portfolio : [Tapas Das | Platform Operations & Support Leader](#)

PROFESSIONAL SUMMARY

Results-oriented Technical Support & Platform Operations professional with 8+ years of progressive IT experience spanning production support, incident management, service delivery, and operations governance and 5+ year as Support Lead. Currently leading platform operations and P0/P1 incident management for ALMP (Americana Last Mile Platform) — a mission-critical restaurant delivery technology ecosystem operating across UAE, Kuwait, and Qatar. Consistently achieved 98%+ SLA compliance, managed cross-functional support teams of up to 7 engineers, and delivered executive-level operational reporting across complex multi-country environments. Adept at leading production support functions, driving process improvement, and ensuring operational continuity in high-availability, always-on platforms.

CORE COMPETENCIES

P0/P1 Incident Management ▪ Root Cause Analysis (RCA) ▪ SLA & OLA Governance
Production Support Operations ▪ Change & Release Management
Team Leadership & Mentoring ▪ Cross-Functional Coordination ▪ Operational KPI Reporting
Process Improvement & Automation ▪ Monitoring & Alerting ▪ Stakeholder Communication ▪ AI Productivity

PROFESSIONAL EXPERIENCE

Americana (Kuwait Food Company) – ALMP Platform

Oct 2025 – Present

Technical Support Lead – Platform Operations | Mohali, India

ALMP: Americana Last Mile Platform | Markets: Entire Middle East

- Lead end-to-end production support operations for a high-availability, multi-market restaurant delivery platform — maintaining 18/7 standard coverage and 24/7 on-call operations during peak business events (Eid, New Year, national holidays).
- Own the complete P0/P1 incident lifecycle: triage, stakeholder communication, cross-team escalation, RCA coordination, workaround implementation, service restoration, and post-incident review documentation.
- Monitor production platform health across microservices, Kafka event pipelines, application databases, and cloud infrastructure using New Relic, Azure Monitor, and Site24x7.
- Investigate and resolve complex operational incidents including order assignment failures, order visibility anomalies, dashboard issues, event sync delays, payment mismatches, stuck orders, and NULL payload errors.
- Coordinate cross-functional recovery activities across Backend, Infrastructure, DBA, QA, Product, and third-party vendor teams to restore services within SLA windows.
- Validate production deployments, change requests (CRs), and hotfix releases — applying structured risk assessment protocols to ensure stable rollouts with minimal disruption.
- Lead and manage a team of 7 support engineers: daily performance oversight, shift scheduling, capacity planning, workload balancing, and operational governance.
- Drive automation and process improvement initiatives that measurably reduce repeat incident volumes, recurring operational effort, and mean time to resolution (MTTR).
- Prepare and publish executive operational reports covering platform KPIs, SLA performance, incident trend analysis, and business continuity status for senior leadership.
- Represent the support and operations function in cross-functional governance forums with Product, Engineering, Infrastructure, and Business stakeholder teams.

Wipro Ltd.

Kolkata, India | Progression across three roles within the same organisation

Aug 2018 – Oct 2025

Team Lead – Global IT Support

2021 – Oct 2025

- Led a global front-line IT support team of 7 engineers managing end-to-end incident response and service request fulfilment for enterprise SaaS/PaaS environments via ServiceNow, consistently maintaining 98%+ SLA compliance across all performance cycles.
- Designed and deployed PowerApps-based workflow automation solutions, reducing manual processing effort and improving operational throughput and end-user experience.
- Implemented Information Risk Management (IRM) controls to align team practices with data security standards, compliance requirements, and enterprise risk frameworks.
- Managed shift scheduling, capacity planning, and performance audits to optimise team output and reduce operational shrinkage across global time zones.
- Maintained SLA/KPI operational dashboards and produced management-level reporting to support data-driven decisions on resource planning and service improvement.

Compliance Auditor – Process Quality

2020 – 2021

- Audited customer-facing interactions and internal support processes to identify quality gaps, process deviations, and compliance risks; developed corrective action plans that measurably improved quality scores and audit compliance outcomes.
- Delivered structured feedback and coaching to team leads and agents, reinforcing SOP adherence, service standards, and a quality-first operational culture.

Subject Matter Expert (SME)

Aug 2018 – 2020

- Served as the primary technical escalation point for a 40+ agent support floor, providing real-time query resolution and reducing escalation rates through hands-on guidance.
- Developed SOPs, knowledge base articles, and structured training materials; delivered formal training and floor coaching sessions to improve first-contact resolution rates and team capability.

Hewlett Packard (HP) Ltd.

May 2017 – Jul 2018

Technical Support Associate | Bangalore, India

- Provided customer-facing technical support and troubleshooting for HP hardware and software products across a diversified enterprise client base, maintaining high customer satisfaction ratings.
- Built core competencies in structured incident handling, escalation management, and professional customer communication — forming the foundation for a career in IT operations leadership.

KEY CAREER ACHIEVEMENTS

- Directed end-to-end resolution of critical high-severity production incidents affecting thousands of customer orders across three GCC markets simultaneously — including database performance degradation, Kafka event processing failures, and assignment engine breakdowns — restoring full platform continuity within defined SLA windows.
- Orchestrated recovery of 2,000+ impacted orders during a multi-market service disruption, achieving full order lifecycle reconciliation with zero data loss.
- Maintained 98%+ SLA compliance across global enterprise IT support operations at Wipro over a continuous 4+ year tenure — exceeding targets in every performance review cycle.
- Delivered PowerApps workflow automation at Wipro that eliminated a high volume of manual operational tasks, directly improving team throughput and reducing process turnaround time.
- Improved team incident turnaround speed through the design of structured escalation protocols and enhanced cross-functional collaboration workflows across support, engineering, and infrastructure functions.

TECHNICAL SKILLS

Production Support & Operations: Incident Management, Order Lifecycle Operations, Multi-Market Platform Support, Service Restoration, Triage & Escalation, Operational Governance, 24/7 Environment Management

Monitoring & Alerting Tools: New Relic, Azure Monitor, Site24x7, Alert Configuration, Health Dashboard Management, SLA/OLA Monitoring, Kafka Consumer Lag Monitoring (Operational)

Incident & Problem Management: P0/P1 Lifecycle Management, Root Cause Analysis (RCA), Workaround Coordination, Post-Incident Review, Incident Trend Analysis, Problem Record Management

Change & Release Management: Change Request (CR) Validation, Production Deployment Review, Hotfix Release Management, Risk Assessment, Rollback Coordination, Release Governance

Service Delivery & Governance: SLA/OLA Compliance Management, ITIL-Aligned Service Operations, Vendor & Partner Coordination, Service Review Reporting, Customer Communication, Continuous Service Improvement

Automation & Productivity Tools: PowerApps, ServiceNow, MySQL (Operational Queries), Workflow Automation, SOP Development, Process Optimisation, Operational Analytics

Reporting & KPI Management: Executive Operational Reports, KPI Dashboards, SLA Review Decks, Daily Platform Health Summaries, Incident Trend Reporting, Stakeholder Briefings

AI Productivity & Prompt Engineering: ChatGPT, Claude AI, Gemini, NotebookLM, Canva AI, AI-Assisted Operational Reporting, Prompt Engineering, AI-Driven Workflow Automation
